LED Strip Lights with Switch 88

Dome Light – Round 90

Dome Light – Rectangular 91

LED Interior Lighting

LED Strip Light

- High output LEDs.
- Low current draw.
- Multi-voltage.
- Easy installation.
- Slimline design.
- Polycarbonate construction.
- Frosted lens for diffused light.
- Optional mounting brackets available.
- 5-year warranty.

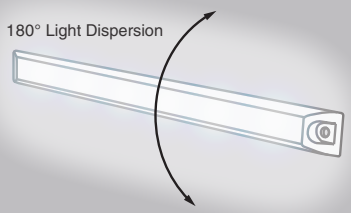
Operational Voltage :	10–30V
Lens :	Polycarbonate
Body :	Polycarbonate
Weight :	0.05kg
Connector :	250mm Fly Lead
Light Source :	6 x LEDs
Operating Temperature :	-20°C to 60°C

10V 30V 5Yrs

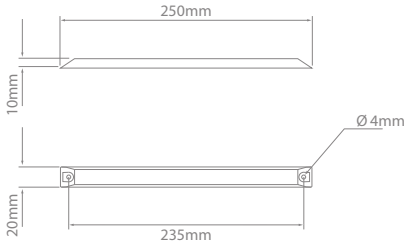
Ultra Wide 180° Light Dispersion

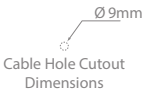
Compact and easy to install the LED Strip Light produces a remarkable 180° of even, diffused light, to comfortably illuminate large vehicle interiors and compartments.

Ideal for commercial vehicles, canopies, service bodies, lockers, marine applications and more.



Example of one Strip Light installed illuminating an entire canopy.

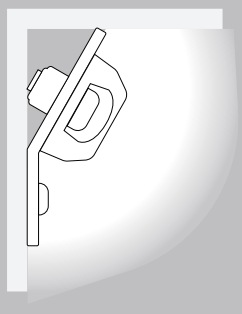




LED Strip Light

Part No.	Operational Voltage	No. of LEDs	Lumen	Current Draw (A) @ 12V
INT250	10–30	6	420	0.4

Not recommended for mounting on synthetic surfaces.

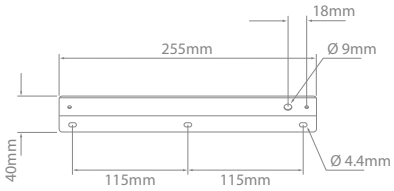


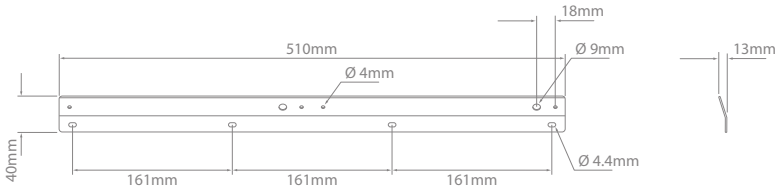
The LED Strip Light Mounting Brackets are designed to mount single or dual INT250 strip lights at a 30 degree angle, ideal for use at the wall/ceiling corner for optimal lighting coverage.

Dual INT250 strip lights with mounting bracket

INT250-BKT

INT250-DUALBKT



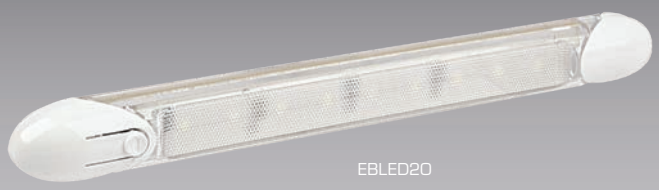


LED Strip Light – Mounting Brackets

Part No.	Description
INT250-BKT	Powder coated steel, suits 1 x INT250
INT250-DUALBKT	Powder coated steel, suits 2 x INT250

LED Interior Lighting

LED Strip Lights with Switch



EBLED20

- Incorporated latching push button ON/OFF switch.
- High output LEDs.
- Low current draw.
- Multi-voltage.
- Easy installation.
- Slimline design.
- Polycarbonate construction.
- Epoxy sealed for vibration & moisture resistance.
- 5-year warranty.

Operational Voltage :	12–24V
Lens :	Polycarbonate
Body :	Polycarbonate
Connector :	100mm Fly Lead
Light Source :	LED
Operating Temperature :	-30°C to 50°C

12V 24V 5Yrs

EBLED40

Integrated latching push button ON/OFF switch

LED Interior Lighting

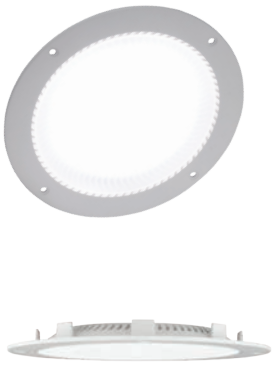
Dome Light – Round

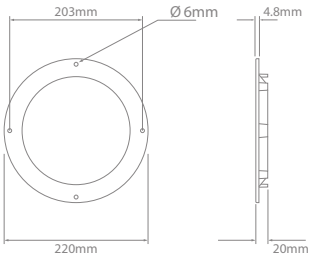
NEW

- Meets GSA-KKK and NFPA 1917 standards for illumination, when installed according to manufacturer's specifications.
- Ultra slim design, protrudes less than 4.8mm.
- Each unit colour temperature checked to 4100K for actuate skin tone rendering.
- Robust cast alloy body.
- Even, consistent & wide angle 1,000 lumen output.
- Output can be adjustable with PWM (Pulse Width Modulation) dimmer.
- Integrated cooling fins.
- Made in North America.
- 5-year warranty.

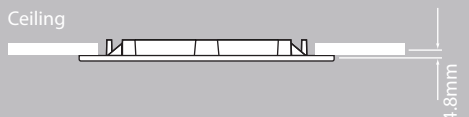
5Yrs Made in North America

Operational Voltage :	10–16V
Lens :	Acrylic
Body :	Aluminium
Weight :	0.6kg
Connector :	300mm Fly Lead
Operating Temperature :	-40°C to 65°C
Colour Temperature :	4100K
Approvals :	UL, GSA-KKK, NFPA 1964





Recessed Mount



GSA-KKK & NFPA 1917 Compliant

Meets GSA-KKK and NFPA 1917 standards for illumination, when installed according to manufacturer's specifications.

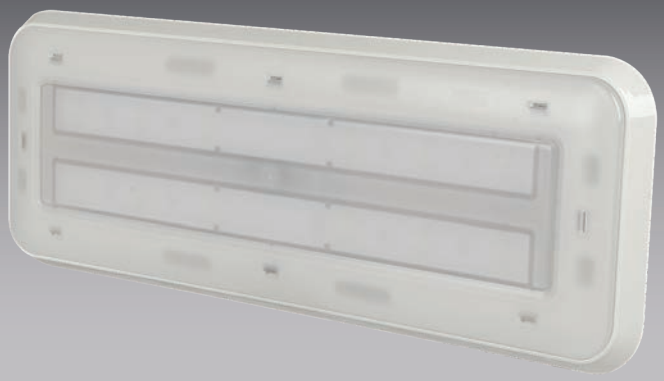
Dome Light – Round – Recessed Mount NEW

Part No.	Operational Voltage	No. of LEDs	Lumen	Current Draw (A) Low Output	Current Draw (A) High Output
8052-0000-30	10–16	21	1,000	0.6	1.2

WELDON A DIVISION OF AKRON BRASS

Dome Light – Rectangular

- Extreme light output – 2,300 Lumen.
- Multi-voltage.
- Easy installation.
- Slimline design
- Polycarbonate lens.
- Frosted lens for diffused light.
- Environmentally sealed – IP67.
- Epoxy sealed for vibration & moisture resistance.
- 5-year warranty.



Operational Voltage :	10–30V
Lens :	Polycarbonate
Body :	Polycarbonate
Weight :	0.95kg
Connector :	460mm Fly Lead
Ingress Protection :	IP67
Operating Temperature :	-30°C to 50°C
Colour Temperature :	6000K
Approvals :	CE

10V 30V IP67 5Yrs
