

Interior Lighting

- High output LEDs.
- Low current draw.
- Multi-voltage operation.
- Easy installation.
- Slimline design.
- Polycarbonate construction.
- Frosted lens for diffused light.
- Ultra wide 180° light dispersion.
- 5 year warranty.

IONNIC LED Strip Light

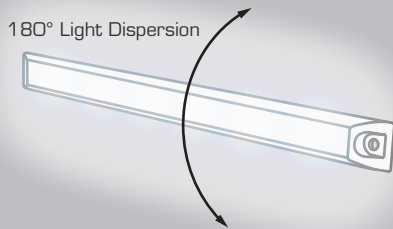

Voltage : 10-30V
Lens : Polycarbonate
Body : Polycarbonate
Lead Length : 250mm
Light Source : LED
Operating Temperature : -20°C to 60°C

5Yrs 10V 30V

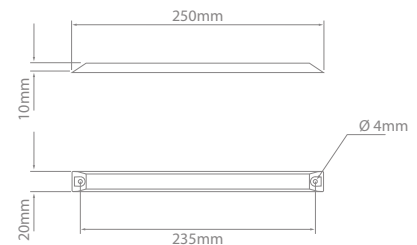

Ultra Wide 180° Light Dispersion

Compact and easy to install the IONNIC LED Strip Light produces a remarkable 180° of even, diffused light, to comfortably illuminate large vehicle interiors and compartments.

Ideal for commercial vehicles, canopies, service bodies, lockers, marine applications and more.

Example of one IONNIC Strip Light installed illuminating an entire canopy.

IONNIC LED Strip Light
