

# Sleeving

- 5 piece set suiting cable bundles from 9.5mm to 31mm in diameter.
- Quick and easy method of inserting cable bundles into wrap style harness protection/sleeving.
- Protects cables from abrasion damage while inserting into sleeving.
- Ideal for use with the IONNIC range of ION-Guard™ Guard-Wrap sleeving, for more info visit [www.ionnic.com](http://www.ionnic.com) or contact your nearest reseller.

Cable Insertion Tool Set

**Material :** Outer Polypropylene RMS-268  
Inner Polyacetal RMS-267

## Using Wrap Insertion Tools

1. Rotate inner white section to open position to allow the insertion of cable bundle.

2. Rotate inner white section so cables can not fall out.

3. Slide the open end of wrap over the point of the insertion tool.

3. Hold cable and wrap together at one end and pull tool down along cable bundle.

## Individual Tool Sizes

Suits cable bundles up to the following sizes:
