

LED Pilot Lamps

- Pre-wired.
- Available in 12mm & 19mm size.
- Variety of colours.
- Epoxy filled for enhanced moisture & vibration protection.
- Centre style illumination.
- Multi-voltage.
- Colour-coded wire for easy LED colour identification.
- Environmentally sealed – IP65.

Voltage : 12–24V
Body : Stainless Steel
Light Source : LED
Cable Length : 300mm
Ingress Protection : IP65
Approvals : RoHS
Operating Temperature : -20°C to 55°C

Vandal Resistant – Pre-wired

LED Pilot Lamps – Vandal Resistant – Pre-wired

Voltage	Size (mm)	Max. Panel Thickness (mm)	Red	Green	Amber	Blue
12–24	12	10	P12P-CR	P12P-CG	P12P-CA	P12P-CB
	19		P19P-CR	P19P-CG	P19P-CA	P19P-CB

LR01 Load resistor maybe required when used as an alternator warning light.

LED Pilot Lamps – Load Resistor

Part No.	Description
LR01	Pre-wired 5W load resistor
